

BLUETOOTH ELECTRONIC DEADBOLT

FEATURES

- ANSI/BHMA Grade 3 security
- Operate and setting with mobile APP
- Remote share access
- Simple access code

FAULTLESS

GREAT CONVENIENCE

- Unlock your door without having to reach for your phone or your keys
- Press to lock
- Operable with TFH's APP
- Holds up to 10 users
- Volume control (adjustable to work with environments)
- Vacation mode (deactivates all user codes temporarily)
- Auto-lock with adjustable delay (10 - 99 seconds)
- Back-up mechanical keyway

UNCOMPROMISED SECURITY

- ANSI Grade 3 quality – deadbolt operates over 100,000 times
- ANSI A156.25 compliant - resistant to dust, rain, and corrosion under variable temperatures
- Temporarily disabled after 4 consecutive incorrect entries
- AES-128 encryption

EASY INSTALLATION

- Replaces your existing deadbolt
- Easy installation with a Philips screwdriver
- Fits most standard door preparations
