

# FAULTLESS®

## TOUCH-BOLT™

THE SMART TOUCH EXPERIENCE  
TOUCH-BOLT SERIES ELECTRONIC LOCK

- Simply touch the screen to operate
- Easily unlock by key cards
- Panic-proof design designs to ensure safety
- Vacation mode provides high security while away from home
- Voice guide for easy operation

## Great Convenience

- Simply touch the screen to operate
- Holds up to 32 user code and 32 user cards
- External 9V battery power back-up
- Volume control (adjustable to work with environments)
- Auto-lock with adjustable delay (5 - 99 seconds)
- Back-up mechanical keyway
- Passage mode (disables auto-lock function)

## Uncompromised Security

- 4-digit random security mode prevents code-probing
- Touch screen is temporarily disabled after 4 consecutive incorrect entries.
