

# TOUCH-BOLT™

THE SMART TOUCH EXPERIENCE

TOUCH-BOLT SERIES ELECTRONIC LEVERSET

- Simply touch the screen to operate
- Replaces your existing leverset
- Easy installation with a Philips screwdriver
- ANSI Grade 2 quality
- Vacation mode
- Auto-lock with adjustable delay

**FAULTLESS®**

## Great Convenience

- Simply touch the screen to operate
- Holds up to 25 user codes
- Holds up to 4 single-entry codes
- Vacation mode (deactivates all user codes temporarily)
- Auto-lock with adjustable delay (5 - 99 seconds)
- Back-up mechanical keyway
- Easy switch to passage mode

## Uncompromised Security

- ANSI Grade 2 quality – Latch operates over 400,000 times
- Resistant to dust, rain, and corrosion under variable temperatures – ANSI A156.25 compliant
- 4-digit random guiding code prevents code-probing
- Touch screen is temporarily disabled after 4 consecutive incorrect entries

## Easy Installation

- Replaces your existing leverset
- Easy installation with a Philips screwdriver
- Fits most standard door preparations
- Only requires four AA alkaline batteries to operate
